Columbia Medical Center
New York 32, New York

Dear Heinrich:

Some of us here are thinking speculatively of starting a small program in protein neurochemistry to try out some ideas of relating molecular genetics to problems of the nervous system.

I would be grateful to you for a bibliography, and where convenient, reprints of your available papers, on your work on the metabolism of amino acids and proteins.

With best regards,

Yours sincerely,

Joshua Lederberg
Professor of Genetics

Waelsch, H.
